Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The amendment filed 3/2/06 has been entered. Claim 3 has been canceled. Claims 1, 2, and 4-15 are pending in the application.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Terminal Disclaimer

3. The terminal disclaimer filed on 3/3/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on co-pending application 10/480,940 has been reviewed and is NOT accepted. The application being disclaimed has been improperly identified since the filing date used to identify the application, May 7, 2003, is incorrect. The correct filing date should be January 8, 2004.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1, 2, and 4-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Amended claims 1, 5 and 7 recite the limitation “wherein said polymer dispersant has functional groups **absorbed** on the fine hexaboride particles to serve as anchors” (emphasis added), however the original disclosure at the time of filing recites that the functional

Art Unit: 1773

groups are **adsorbed**, i.e. adhered on the surface of the particles, not absorbed, i.e. sucked up into the particles. Hence, considering the terms “absorbed” and “adsorbed” have clearly different meanings in the art, the original disclosure at the time of filing does not reasonably convey to one skilled in the art that the inventor had possession of the claimed “absorbed” invention at the time the application was filed.

Double Patenting

6. Claims 1-4 and 7-15 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-11 of copending Application No. 10/480,940 for the reasons recited in the prior office action.

Response to Arguments

7. Applicant's arguments filed 3/3/06 have been considered but are moot in view of the new ground(s) of rejection as recited in paragraph 5 above. The rejections over the prior art references of record have been withdrawn considering they do not teach an “absorbed” dispersant however the references may be reapplied in the event the claims are modified to recite an “adsorbed” dispersant.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 1773

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
